# LIFT-马AFE ${ }^{\text {® }}$ 

Series LS22H
"Quality Since 1910"

## Hydraulic Planetary Cable Winches

Lift-Safe ${ }^{\circledR}$ hydraulic winches are specifically designed for lifting applications and optimum load control. Engineered for enhanced safety with redundant braking systems, and available in a variety of configurations. LiftSafe ${ }^{\circledR}$ winches utilize the DUET-SAFE ${ }^{\circledR}$ Double Action Braking System to provide both static and dynamic braking. Series LS22H direct drive winches are used for industrial pulling and hoisting applications, fishing boats, marine craft, drill rigs, small cranes, factory material handling and rear load waste handlers.

UP TO 20,000 POUNDS CAPACITY

## Lift-Safe ${ }^{\circledR}$ Hydraulic Cable Winches - Standard Features

MOTOR-BRAKE

GEAR CASE

PLANETARY GEAR
GEAR RATIO
BEARINGS

DRUM SHAFT
CABLE DRUM

- DUET-SAFE ${ }^{\circledR}$ Double Action Braking System combines a powerful spring applied, hydraulic released motor-brake with a double counter balance brake valve to automatically hold loads when hydraulic pressure is released and control speed during lowering operations. Winch is ideal for high speed lifting and pulling applications or wherever load holding is critical.
- Made of high strength steel. Completely sealed for oil enclosed operation and to keep dirt out.
- High Efficiency Double Reduction - Rugged - Built to Last.
- 17:1 standard.
- Drum Shaft is supported by two heavy duty oil lubricated bearings in gear case, and one permanently sealed ball bearing in end housing.
- 2-1/4" diameter heat -treated alloy steel minimum tensile strength 150,000 psi.
- Tough all steel construction resists breakage or warping.

## Correct choice of Directional Control Valves for Lift-Safe® Winches

## All Lift-Safe ${ }^{\circledR}$ Winches require a Motor Spool Control Valve.

That is the valve's work ports are open to tank in neutral position.
*Winches require ridged mounting plate. See owner's manual for information about proper mounting plate thickness or call Bloom Sales Engineer at factory

## WARNING!

Goods are not intended for use in the moving or lifting of persons!

The winches described herein are neither designed nor intended for use or application to equipment used in the lifting or moving of persons and it is understood that all such use shall be at the sole risk of the user.

The cable clamps on winches are not designed to hold rated loads. A minimum of 5 wraps of cable must be left on drum barrel to guarantee holding of rated load.

Applications of winch where life would be endangered by any event are not recommended.
